

# Ulster Medical Society

The Ulster Medical Society was founded in 1862 by the amalgamation of the Belfast Medical Society and the Belfast Clinical and Pathological Society.

\*

It is a general medical society and ordinary membership is open to everyone eligible for registration under the Medical Acts.

**Medical students in the UK may join as student members for free and certain non-medical health professionals may join as associate members.**

**Please visit the website for more details and an application form.**

\*

The Society holds a series of lectures from October to March on topics of general interest. The lectures are open to all members of the Society and interested healthcare workers.

\*

The Ulster Medical Journal is published three times a year. It is sent free to all non-student members of the Society. The Editor always welcomes offers of papers.

\*
