It is a general medical society and ordinary membership is open to everyone eligible for registration under the Medical Acts.

Medical students in the UK may join as student members for free and certain non-medical health professionals may join as associate members.

Please visit the website for more details and an application form.

*

The Society holds a series of lectures from October to March on topics of general interest. The lectures are open to all members of the Society and interested healthcare workers.

*

The Ulster Medical Journal is published three times a year. It is sent free to all non-student members of the Society. The Editor always welcomes offers of papers.
