

Ulster Medical Society

SIR THOMAS AND LADY EDITH DIXON LECTURE

The Ulster Medical Society was founded in 1862 by the amalgamation of the Belfast Medical Society, the Belfast Clinical and Pathological Society, and the Ulster Medical Protective Association.

✱

We are a general medical society and ordinary membership is open to everyone eligible for registration under the Medical Acts.

✱

Medical students may join as student members for free and certain non-medical health professionals may join as associate members.

✱

The Society holds a series of lectures from October to March on topics of general interest. The lectures are open to all members of the Society and interested healthcare workers.

✱

The Ulster Medical Journal is published three times a year. It is sent free to all non-student members of the Society. The Editor always welcomes offers of papers.

✱

Please visit our website for more details and application forms.
